Good morning Dave:

I wanted to inquire, who should I send answers to a few of the questions that were raised yesterday, regarding what we had for DO meter, lab settleometer, etc. Should I send to you, and Peter then you could forward to other[s]?

Please let me know, and I'll provide that update today.

The Hull NPDES link is correct.

Thank you,

Aram

Hi All,

So far as I can tell, Hull's current permit was issued in 2009. (Hull folk: please let us know if this isn't correct)

Here's a link to permit:

<https://www3.epa.gov/region1/npdes/permits/2009/finalma0101231permit.pdf>

Hi all,

Thanks, Aram, for the clarification.

I will work to find another time for the conference call. I am copying Peter Bahor from EPA HQ and Louis Salguero, who you have already corresponded with, to help find another time that works for everyone that needs to be on the call.

Thanks, Dave

I'm sure this was just a typo, John. Confirming the date as Nov 20th for the field workshop. Wed. 11/20/19.

David, That's fine on Nov 30th, the only thing is I can not commit to being available for the call on Oct 31st as I have another commitment. Is it possible to have call on some Mon, Tues, or Wed? or schedule after 3:30 on Thursday when I will have a better chance of being available?

John

Hi John,

I am confirming switching the exercise date to Wednesday Nov 20.

We are also interested in having a conference call with you and your project managers, program staff from EPA HQ, and at least some of the EPA staff from around the country that will be on-site for the exercise to go over the stations that we are planning and the logistics of the day. EPA staff have been holding regular conference calls and the next scheduled one is Thursday (Oct 31) at 2:30 pm.

If you can join this call on Oct 31, that would be great; otherwise, I will find another time that works for us all.

Thanks, Dave
